Web Designer · Nov 2016–Oct 2018 · Hunt Valley, MD

— **Designed** and **consulted** websites, landing pages and microsites for 200+ B2B and B2C companies using strategies that reflect the end goals.

— **Communicated** ideas using sitemaps, wireframes, stylescapes and prototypes to clients, the SEO team and the web development team.

— **Developed** websites independently or with a team using HTML, SCSS, PHP, Bootstrap, Javascript and jQuery in WordPress.

— **Organized** a pricing structure and design process for logos to create additional revenue as well as expand the company's portfolio and services.

— **Mentored** fellow peers to better understand their abilities, strengthen their talents and maximize their potential to the fullest.

— **Revised** QA system to better define an error by orderly narrowing down the browser, operating system, platform, and page of the problem's origin.

— **Spearheaded** and **executed** a limit on revisions to prevent exhausting budgets through seemingly endless edits and encourage decisive decision-making.
